

# safe | means more to us than just being part of our name.

The Seasafe Team and our Anti-Slip products are dedicated to improving Safety across all industries. Industrial Slip-and-Fall occurrences account for nearly 40% of reported accidents resulting in loss of work days, investigations, and worst of all an injured worker. Minimize your Risk with a Seasafe Anti-Slip Solution!

## GatorTread

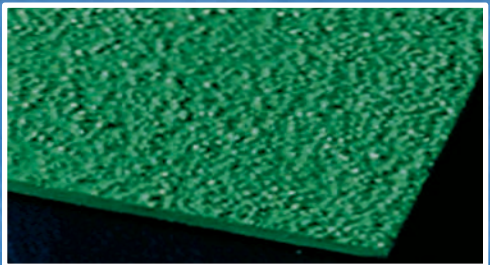

**Ease of cutting** - the panel design incorporates cutting "slots" every six inches so treads can be cut inexpensively, quickly and accurately, resulting in banded treads on both ends.

## Stair Tread Cover

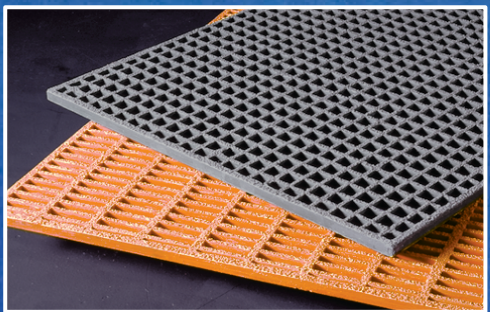

A cost effective Anti-Slip Solution for any stairway application. Tread covers can be bonded/fastened to existing Metallic, Concrete and Wood stairs.

## GatorPlate™

**GatorPlate™** floor plate is perfect for fixing slippery spots or in large slippery areas. The anti-slip surface helps reduce slips & falls even when hazardous liquids are present.

## GatorGrate™

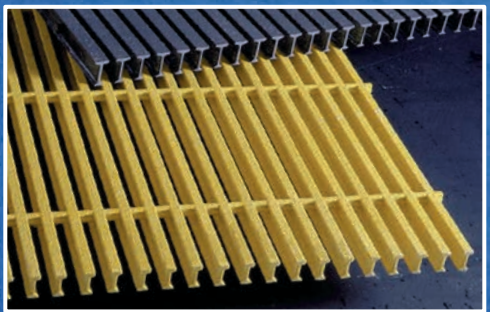

**Open Molded Grating**  
Bi-directional strength - integral anti-slip top surface
